

# OPEN TOP FIELD LOADER CONVEYOR

USC's open top field loader conveyor is part of the grain and fertilizer handling product line. Made of stainless steel, the open top field loader conveyor is primarily designed to move fertilizer. Its low-profile perfectly fits under commercial hoppers, and the self-moving feature makes it convenient to use anywhere in the field.

## FEATURES & ADVANTAGES

- Self-moving with directional controls.
- Gas over hydraulic power pack.
- Moves up to 150 tons per hour.
- 35' length.
- 14' discharge at 24° incline.
- 24" wide chevron belt.
- 12-gallon fuel tank.
- 1.5" Dodge bearings.
- 2-5/16" ball hitch.
- Low profile.
